Dear Madam,

We would like to object, in the strongest possible manner, to the proposed cuts to The Oberon Council Library budget.

We believe the Oberon Council Library has a very important role to play in the community, both recreational, and in its study and research facilities, and is definitely one area that should not be downgraded.

I realise that the Oberon Council has suffered losses through bad investments, but these losses should not be passed on to community facilities as important to the community such as the Library. In any case, I believe that public monies should be handled wisely, not speculated in risky ventures, and then expect the community to bear the loss.

Yours Sincerely

A handwritten signature in black ink, appearing to read "Mike &amp; Bev O'Brien".
