

PUBLIC NOTICE

Temporary interruption to water service

Further to Oberon Council's ongoing commitment to water quality, Stage 1 of Council's Filtration Membrane Replacement program at the Oberon Water Treatment Plant will be carried out from 05 – 09 June 2023.

Stage 2 will be undertaken between 19 – 23 June 2023. Upon completion of this second stage the water treatment plant will return to full production.

Please note during the above listed dates, it is requested that residents and businesses reduce, where possible, water consumption as the Water Treatment Plant will be operating at half capacity.

Residents and businesses will still have water during this time. Council's contractor will be undertaking the works between approx. 8:00am – 5:00pm daily.

Council apologises for any inconvenience and appreciates your patience during this essential work. Services will return to normal as quickly as possible.
